

KAMALVEER SINGH

FULL STACK & MOBILE APP DEVELOPER

kamalhara7@gmail.com | +91 78146 50362 | github.com/kamalhara | Portfolio

PROFESSIONAL SUMMARY

Full Stack and Mobile App Developer experienced in building, integrating, and deploying responsive web and cross-platform mobile applications. Proficient across React, Next.js, React Native, Node.js, Express.js, PostgreSQL, and MongoDB, with hands-on expertise in REST APIs, authentication, database design, reusable architecture, and production deployment.

CORE COMPETENCIES

Full-stack development | Cross-platform mobile development | REST API design | Authentication and authorization | Relational and NoSQL data modeling | Responsive UI development | Production deployment

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend & Mobile	React.js, Next.js, React Native, Expo, Tailwind CSS, responsive UI
Backend & APIs	Node.js, Express.js, REST APIs, JWT, OAuth, RBAC, validation, error handling
Data & Services	PostgreSQL, MySQL, MongoDB, Supabase, Neon, Drizzle ORM, Clerk, Stripe
Tools & Delivery	Git, GitHub, Postman, Vercel, API integration, debugging, deployment

PROFESSIONAL EXPERIENCE

Full Stack & Mobile App Developer | Talmee

Aug 2025 - Present

Remote | Part-time

- Deliver production-ready web and mobile features across React, Next.js, React Native, Node.js, PostgreSQL, and MongoDB applications.
- Design secure REST APIs with JWT authentication, role-based authorization, input validation, and centralized error handling.
- Build reusable frontend components and backend services to improve maintainability and accelerate feature delivery.
- Contribute across the software delivery lifecycle, including implementation, testing, debugging, Git-based collaboration, deployment, and post-release support.

SELECTED PROJECTS

RYDE | Cross-platform Ride-Hailing Application

Stack: React Native, Expo, PostgreSQL, Clerk, Stripe

- Built end-to-end ride booking and payment workflows with secure authentication, real-time location services, and route visualization.
- Structured scalable backend integrations and application state for reliable booking and payment flows.

PRODUCTIFY | Product Discovery Platform

Stack: Next.js, Express.js, PostgreSQL, Drizzle ORM, Clerk

- Developed a responsive full-stack platform with authenticated CRUD workflows, commenting, and reusable UI components.
- Designed maintainable application and data-access layers to support scalable feature development.

NATOURS | Tour Booking Backend API

Stack: Node.js, Express.js, MongoDB, JWT

- Engineered a RESTful API with authentication, role-based access control, advanced filtering, and aggregation queries.
- Applied modular backend architecture, validation, and scalable API design principles.
